Re: FairTax, not Value Added Tax (VAT)

Dear [Congressperson or Senator last name]:

Please do not even begin to entertain thoughts about a VAT until you are willing to thoroughly consider the FairTax! (HR.25, S.296).

A VAT on top of income taxes would kill the economy.

The FairTax would REPLACE income taxes (corporate and individual), estate, gift and generation-skipping taxes, and payroll taxes. The FairTax, unlike a VAT, would super-charge the economy. It is also transparent, efficient and fair.

Your answer to even the suggestion of a VAT must be a RESOUNDING NO! Make sure the VAT is dead on arrival.

Thank You.

Respectfully,

(Your name here)
